VVersatile, high-energy professional targeting challenging assignments in Machine

PROFILE SUMMARY

An IT professional ith knoledge and experience of 2 years in wipro Technologies in Machine

Learning, Deep Learning, Data Science, Python, Softare Development.

Skilled in managing end-to-end development and softare products / projects from inception, requirement specs, planning, designing, implementation, configuration and documentation.

Knoledge on Python , Machine Learning, Deep Learning, data Science, Algorithms, Neural Netork,

NLP, GCP.

Knowledge on Python Libraries like Numpy, Pandas, Seaborn, Matplotlib, Cufflinks.

Knowledge on different algorithms in Machine learning like KNN, Decision Tree, Bias variance Trade off,

Support vector Machine(SVM), Logistic Regression, Neural networks.

Have knowledge on unsupervised, Supervised and reinforcement data.

Programming experience in relational platforms like MySQL, Oracle.

Have knowledge on Some programming language like C++, Java.

Experience in cloud based environment like Google Cloud.

Working on different Operating System like Linux, Ubuntu, Windows.

Good interpersonal and communication skills.

Problem solving skills with the ability to think laterally, and to think with a medium term and long term perspective

Flexibility and an open attitude to change.

Ability to create, define and use frameworks with a strong emphasis on code reusability.

## TECHNICAL SKILLS

Programming Languages Python, C

Libraries Seaborn, Numpy, Pandas, Cufflinks, Matplotlib

Algorithms

KNN, Decision Tree, Linear regression, Logistic Regression, Neural Networks, K means clustering,

Tensorflow, SVM

Databases SQL, Oracle

Operating Systems Linux, Windows

Development Environments NetBeans, Notepad++, Sublime

Ticketing tools Service Now, Remedy

Education

UG Education:

B.Tech (Computer Science) from Rayat and Bahra Institute of Engineering and Biotechnology passed with 78.4% in 2016.

Schooling:

XII in 2012 from Moti Ram Arya Sr. Secondary School (Passed with 78.4%)

X in 2010 from Valley Public School (Passed with 9.4 CGPA)

## WORK EXPERIENCE

Title : wipro Neural Intelligence Platform

Team Size : 5

Brief: wipro's Neural Intelligence Platform harnesses the power of automation and artificial intelligence technologies: natural language processing (NLP), cognitive, machine learning, and analytics. The platform comprises three layers: a data engagement platform that can easily access and manage multiple structured and unstructured data sources; an intent assessment and reasoning engine that includes sentiment and predictive analytics; and a deep machine learning engine that can sense, act, and learn over time. The project entailed automating responses to user queries at the earliest. The Monster Bot using the power of Deep Machine Learning, NLP to handle such queries. User can see how their queries can be answered quickly like all L1 activities can be eliminated.

Entity Extractor -> This involves text extraction and NLP for fetching out important information from the text like dates, names, places, contact numbers etc. This involves Regex, Bluemix NLU api's and machine learning using TensorFlow for further learning of new entities.

Classifier -> This involves the classifications of classes, training of dataset and predicting the output using the SKLearn classifier (MNB, SVM, SGD as Classifier) and SGD for the optimization to map the user queries with the best suited response and make the system efficient.

NER: A Deep Learning NER Model is trained to extract the entities from the text. Entities like Roles, Skills, Organizations can be extracted from a text. RNN(LSTM) Bidirectional model is trained for extracting such entities using Keras TensorFlow framework.

## OTHER PROJECTS

Title : Diabetes Detection

Brief : Developed the software which can detect whether the person is suffering from Diabetes or not and got the third prize in it.

## TRAINING AND CERTIFICATIONS

Title: Python Training, Machine Learning, Data Science, Deep Learning

Organization: Udemy, Coursera (Machine Learning, Deep Learning)

## Personal Profile

Father's Name :Mr. Tirlok w

Language Known : English & Hindi

Marital Status :Single

Date of Birth(Gender):1993-12-20(YYYY-MM-DD) (F)
